SUBJECT INDEX

HEARING

NATURE OF HEARING AND ITS DISORDERS

Normal Auditory Systems

Comparative evaluation of the auditory responsiveness of normal infants and profoundly multihandicapped children. Flexer, C., & Gans, D. P. June 1985, 163-168.
Older listeners' ability to comprehend speaker-generated rate alteration of passages. Schmitt, J. F., & Carroll, M. R. June 1985, 309-312.
Visemes observed by hearing-impaired and normal-hearing adult viewers. Owens, E., & Blazek, B. September 1985, 381-393.

Auditory and Other Otic Pathologies

Diotic loudness summation in normal and impaired hearing. Hall, J. W., & Harvey, A. D. G. September 1985, 445-448.

Hearing Loss and Deafness

Categorical perception of speech sounds via the tactile mode. Collins, M. J., & Hurtig, R. R. December 1985, 594-598.

Creative language abilities of deaf children. Marschark, M., & West, S. A. March 1985, 73-78.

Diotic loudness summation in normal and impaired hearing. Hall, J. W., & Harvey, A. D. G. September 1985, 445-448.

Effects of stimulus material on the dichotic listening performance of patients with sensorineural hearing loss. Speaks, C., Niccum, N., & Van Tasell, D. March 1985, 16-25.

Evaluation of speech production of the hearing impaired: Some benefits of forced-choice testing. Boothroyd, A. June 1985, 185-196.

Frequency selectivity and consonant intelligibility in sensorineural hearing loss. Preminger, J., & Wiley, T. L. June 1985, 197-206.

Influence of the first formant on the recognition of voiced stop consonants by hearing-impaired listeners. Dorman, M. F., Lindholm, J. M., & Hannley, M. T. September 1985, 377-380.

Linguistic environment of the deaf child: A focus on teachers' use of nonliteral language. Newton, L. September 1985, 336-344.

Magnitude estimation of loudness III: Performance of selected hearing aid users. Margolis, R. H. September 1985, 411-420.

Phoneme feature perception in noise by normal-hearing and hearing-impaired subjects. Gordon-Salant, S. March 1985, 87-95.

Prespeech vocalizations of a deaf infant: A comparison with normal metaphonological development. Oller, D. K., Eilers, R. E., Bull, D. H., & Carney, A. E. March 1985, 47-63.

Speaking clearly for the hard of hearing I: Intelligibility differences between clear and conversational speech. Picheny, M. A., Durlach, N. I., & Braida, L. D. March 1985, 96-103.

Visemes observed by hearing-impaired and normal-hearing adult viewers. Owens, E., & Blazek, B. September 1985, 381-393.

Visual matching test-taking strategies used by deaf readers. LaSasso, C. March 1985, 2-7.

Vocal/verbal response times of normal-hearing and hearing-impaired children. Fletcher, S. G., & Smith, S. C. December 1985, 548-555.

ASSESSMENT OF HEARING

Psychoacoustics

Diotic loudness summation in normal and impaired hearing. Hall, J. W., & Harvey, A. D. G. September 1985, 445-448.

Frequency selectivity and consonant intelligibility in sensorineural hearing loss. Preminger, J., & Wiley, T. L. June 1985, 197-206.

Magnitude estimation of loudness III: Performance of selected hearing aid users. Margolis, R. H. September 1985, 411-420.

Acoustical Instruments, Measurements, and Standards

Earphone-coupling technique for measuring the temporal characteristics of aural acoustic-immittance devices. Shanks, J., Wilson, R., & Jones, H. June 1985, 305-308.

Specific Diagnostic Techniques and Approaches

ACOUSTIC IMMITTANCE

Tympanometric and acoustic-reflex studies in neonates. Sprague, B. H., Wiley, T. L., & Goldstein, R. June 1985, 265-272.

PEDIATRIC

Comparative evaluation of the auditory responsiveness of normal infants and profoundly multihandicapped children. Flexer, C., & Gans, D. P. June 1985, 163-168.

Response strength of young children in operant audiometry. Primus, M. A., & Thompson, G. December 1985, 539-547.

SPEECH

Effects of stimulus material on the dichotic listening performance of patients with sensorineural hearing loss. Speaks, C., Niccum, N., & Van Tasell, D. March 1985, 16-25.

Frequency selectivity and consonant intelligibility in sensorineural hearing loss. Preminger, J., Wiley, T. L. June 1985, 197-206.

Older listeners' ability to comprehend speaker-generated rate alteration of passages. Schmitt, J. F., & Carroll, M. R. June 1985, 309-312.

A 'rationalized' arcsine transform. Studebaker, G. A. September 1985, 455-462.

Vocal/verbal response times of normal-hearing and hearing-impaired children. Fletcher, S. G., & Smith, S. C. December 1985, 548-555.

Word recognition performance with modified CID W-22 word lists. Runge, C. A., & Hosford-Dunn, H. September 1985, 355-362.

INTERVENTION

Habilitation, Rehabilitation, and Education

Auditory implants and tactile aids for the profoundly deaf. Pickett, J. M., & McFarland, W. March 1985, 134-150.

Evaluation of speech production of the hearing impaired: Some benefits of forced-choice testing. Boothroyd, A. June 1985, 185-196.

Linguistic environment of the deaf child: A focus on teachers' use of nonliteral language. Newton, L. September 1985, 336-344.

Primary modality for speech perception in children with normal and impaired hearing. Seewald, R. C., Ross, M., Giolas, T. G., & Yonovitz, A. March 1985, 36-46.

Speech-tracking performance in single-channel cochlear implant subjects. McConkey Robbins, A. J., Osberger, M. J., Miyamoto, R. T., Kienle, M. L., & Myres, W. A. December 1985, 565-578.

Visemes observed by hearing-impaired and normal-hearing adult viewers. Owens, E., & Blazek, B. September 1985, 381-393.

Visual matching test-taking strategies used by deaf readers. LaSasso, C. March 1985, 2-7.

Written narratives of deaf and hearing students: Story recall and inference. Sarachan-Deily, A. B. March 1985, 151-159.

Hearing Aids and Other Prostheses

Auditory implants and tactile aids for the profoundly deaf. Pickett, J. M., & McFarland, W. March 1985, 134-150.

Categorical perception of speech sounds via the tactile mode. Collins, M. J., & Hurtig, R. R. December 1985, 594-598.

Magnitude estimation of loudness III: Performance of selected hearing aid users. Margolis, R. H. September 1985, 411-420.

Probe-determined hearing-aid gain compared to functional and coupler gains. Zemplenyi, J., Dirks, D., & Gilman, S. September 1985, 394-404.

A 'rationalized' arcsine transform. Studebaker, G. A. September 1985, 455-462.

Speech-tracking performance in single-channel cochlear implant subjects. McConkey Robbins, A. J., Osberger, M. J., Miyamoto, R. T., Kienle, M. L., & Myres, W. A. December 1985, 565-578.

STATISTICAL ANALYSIS OF DATA

A 'rationalized' arcsine transform. Studebaker, G. A. September 1985, 455-462.

VISUAL RECOGNITION OF SPEECH SOUNDS

Visemes observed by hearing-impaired and normal-hearing adult viewers. Owens, E., & Blazek, B. September 1985, 381-393.

LANGUAGE

NATURE OF NORMAL LANGUAGE

Language Development

Child meets word: 'Fast mapping' in preschool children. Dollaghan, C. September 1985, 449-454.

Constructive comprehension abilities exhibited by language-disordered children. Ellis Weismer, S. June 1985, 175-184.

Conversational structure and topic performance in mother-child interaction. Wanska, S. K., & Bedrosian, J. L. December 1985, 579-584.

Creative language abilities of deaf children. Marschark, M., & West, S. A. March 1985, 73-78.

Development of print awareness in language-disordered preschoolers. Gillam, R. B., & Johnston, J. R. December 1985, 521-526.

Developmental trends in vocal fundamental frequency of young children. Robb, M. P., & Saxman, J. H. September 1985, 421-427.

Do infants perceive similarity within feature classes? A critique of Hillenbrand [Letter]. Moroff, D. A. June 1985, 316-317.

Phonetic inventories, 15–24 months: A longitudinal study. Stoel-Gammon, C. December 1985, 505-512.

Production of object words and action words: Evidence for a relationship between phonology and semantics. Camarata, S. M., & Schwartz, R. G. September 1985, 323-330.

Role of inversion in children's question development. Klee, T. June 1985, 225-232.

Written narratives of deaf and hearing students: Story recall and inference. Sarachan-Deily, A. B. March 1985, 151-159.

Language Use in Adults

Conversational structure and topic performance in mother-child interaction. Wanska, S. K., & Bedrosian, J. L. December 1985, 579-584.

Empty speech in Alzheimer's disease and fluent aphasia. Nicholas, M., Obler, L. K., Albert, M. L., & Helm-Estabrooks, N. September 1985, 405-410.

Linguistic environment of the deaf child: A focus on teachers' use of nonliteral language. Newton, L. September 1985, 336-344.

Language Differences and Different Languages

Creative language abilities of deaf children. Marschark, M., & West, S. A. March 1985, 73-78.

Phonetic speech perception deficits in dyslexia. Lieberman, P., Meskill, R. H., Chatillon, M., & Schupack, H. December 1985, 480-486.

Verbal Learning and Memory

Child meets word: 'Fast mapping' in preschool children. Dollaghan, C. September 1985, 449-454.

Constructive comprehension abilities exhibited

by language-disordered children. Ellis Weismer, S. June 1985, 175-184.
Verbal rehearsal and memory in language-disordered children. Kirchner, D. M., & Klatzky, R. L. December 1985, 556-565.

LANGUAGE DISORDERS

Aphasia and Other Adult Language Disorders

Effects of linguistic and extralinguistic context on semantic and syntactic processing in aphasia. Pierce, R. S., & Beekman, L. A. June 1985, 250-254.
Empty speech in Alzheimer's disease and fluent aphasia. Nicholas, M., Obler, L. K., Albert, M. L., & Helm-Estabrooks, N. September 1985, 405-410.
Perception of emotional intonation by brain-damaged adults: The influence of task processing levels. Tompkins, C. A., & Flowers, C. R. December 1985, 527-538.
Phonetic speech perception deficits in dyslexia. Lieberman, P., Meskill, R. H., Chatillon, M., & Schupack, H. December 1985, 480-486.

Language Disorders in Children

Cohesion in the narratives of normal and language-disordered children. Liles, B. Z. March 1985, 123-133.
Constructive comprehension abilities exhibited by language-disordered children. Ellis Weismer, S. June 1985, 175-184.
Creative language abilities of deaf children. Marschark, M., & West, S. A. March 1985, 73-78.
Development of print awareness in language-disordered preschoolers. Gillam, R. B., & Johnston, J. R. December 1985, 521-526.
Effects of presentation rate and divided attention on auditory comprehension in children with an acquired language disorder. Campbell, T. F., & McNeil, M. R. December 1985, 513-520.
Homonymy and the voiced-voiceless distinction in the speech of children with specific language impairment. Leonard, L. B., Camarata, S., Schwartz, R. G., Chapman, K., & Messick, C. June 1985, 215-224.
Production of object words and action words: Evidence for a relationship between phonology and semantics. Camarata, S. M., & Schwartz, R. G. September 1985, 323-330.
Verbal rehearsal and memory in language-disordered children. Kirchner, D. M., & Klatzky, R. L. December 1985, 556-565.
Written narratives of deaf and hearing students: Story recall and inference. Sarachan-Deily, A. B. March 1985, 151-159.

Learning Disabilities

Development of print awareness in language-disordered preschoolers. Gillam, R. B., & Johnston, J. R. December 1985, 521-526.

Language Disorders in Mental Retardation

Comprehension of indirect requests in adults with autistic disorders and mental retardation. Paul, R., & Cohen, D. J. December 1985, 475-479.

Language Disorders in Personality and Psychiatric Disturbances

Comprehension of indirect requests in adults with autistic disorders and mental retardation. Paul, R., & Cohen, D. J. December 1985, 475-479.

ALZHEIMER'S DEMENTIA

Empty speech in Alzheimer's disease and fluent aphasia. Nicholas, M., Obler, L. K., Albert, M. L., & Helm-Estabrooks, N. September 1985, 405-410.

PHONOLOGICAL DEVELOPMENT AND DISORDERS

Production of object words and action words: Evidence for a relationship between phonology and semantics. Camarata, S. M., & Schwartz, R. G. September 1985, 323-330.

ASSESSMENT AND INTERVENTION

Assessment

Evaluation of speech production of the hearing impaired: Some benefits of forced-choice testing. Boothroyd, A. June 1985, 185-196.
Visual matching test-taking strategies used by deaf readers. LaSasso, C. March 1985, 2-7.

Physiological Measures of Language Function

Vocal/verbal response times of normal-hearing and hearing-impaired children. Fletcher, S. G., & Smith, S. C. December 1985, 548-555.

LANGUAGE DEVELOPMENT IN HEARING-IMPAIRED CHILDREN

Perceived contrastive stress production in hearing-impaired and normal-hearing children. Weiss, A. L., Carney, A. E., & Leonard, L. B. March 1985, 26-35.

AUTISM

Comprehension of indirect requests in adults with autistic disorders and mental retardation. Paul, R., & Cohen, D. J. December 1985, 475-479.

HEMISPHERIC ASYMMETRIES

Perception of emotional intonation by brain-damaged adults: The influence of task processing levels. Tompkins, C. A., & Flowers, C. R. December 1985, 527-538.

SPEECH

NATURE OF NORMAL SPEECH

Development of Speech and Voice

Developmental trends in vocal fundamental frequency of young children. Robb, M. P., & Saxman, J. H. September 1985, 421-427.
Effects of monitoring vocal intensity on oral air flow in children and adults. Stathopoulos, E. T. December 1985, 589-593.
Phonetic inventories, 15–24 months: A longitudinal study. Stoel-Gammon, C. December 1985, 505-512.
Some phonological characteristics of the speech of normal-hearing children of deaf parents. Schiff-Myers, N. B., & Klein, H. B. December 1985, 466-474.
Variability of lip and jaw movements in children and adults: Implications for the development of speech motor control. Sharkey, S. G., & Folkins, J. W. March 1985, 8-15.

Anatomy and Physiology of the Adult Speech System

Effects of monitoring vocal intensity on oral air flow in children and adults. Stathopoulos, E. T. December 1985, 589-593.
Evaluation of speech production of the hearing impaired: Some benefits of forced-choice testing Boothroyd, A. June 1985, 185-196.
Generation and dissipation of heat in vocal fold tissue. Cooper, D. S., & Titze, I. R. June 1985, 207-215.
Maximum voluntary closing forces in the upper and lower lips of humans. Barlow, S. M., & Rath, E. M. September 1985, 373-376.
Onset of voicing in stuttered and fluent utterances. Borden, G. J., Baer, T., & Kenney, M. K. September 1985, 363-372.
Prephonatory laryngeal and chest wall dynamics. Cavallo, S. A., & Baken, R. J. March 1985, 79-87.
Respiratory kinematics in classical (opera) singers. Watson, P. J., & Hixon, T. J. March 1985, 104-122.

Perception of Speech

Categorical perception of speech sounds via the tactile mode. Collins, M. J., & Hurtig, R. R. December 1985, 594-598.
Dissociations between vowel durations and formant frequency characteristics. Bernstein-Ratner, N. June 1985, 255-264.
Do infants perceive similarity within feature classes? A critique of Hillenbrand [Letter]. Moroff, D. A. June 1985, 316-317.
Effects of feedback filtering on nasalization and self-perception of nasality. Burzynski, C. M., & Starr, C. D. December 1985, 585-588.
Electrolaryngeal speech produced by laryngectomized subjects: Perceptual characteristics. Weiss, M. S., & Basili, A. G. June 1985, 294-300.
Older listeners' ability to comprehend speaker-generated rate alteration of passages. Schmitt, J. F., & Carroll, M. R. June 1985, 309-312.
Perception of feature similarities by infants [Letter]. Hillenbrand, J. June 1985, 317-318.
Phoneme feature perception in noise by normal-hearing and hearing-impaired subjects. Gordon-Salant, S. March 1985, 87-95.
Phonetic speech perception deficits in dyslexia. Lieberman, P., Meskill, R. H., Chatillon, M., & Schupack, H. December 1985, 480-486.
Primary modality for speech perception in children with normal and impaired hearing. Seewald, R. C., Ross, M., Giolas, T. G., & Yonovitz, A. March 1985, 36-46.
Speaking clearly for the hard of hearing I: Intelligibility differences between clear and conversational speech. Picheny, M. A., Durlach, N. I., & Braida, L. D. March 1985, 96-103.

SPEECH AND VOICE DISORDERS

Articulation and Resonance Disorders

Correspondence between an accelerometric nasal/voice amplitude ratio and listeners' direct magnitude estimations of hypernasality. Redenbaugh, M. A., & Reich, A. R. June 1985, 273-281.
Homonymy and the voiced-voiceless distinction in the speech of children with specific language impairment. Leonard, L. B., Camarata, S., Schwartz, R. G., Chapman, K., & Messick, C. June 1985, 215-224.
Prespeech vocalizations of a deaf infant: A comparison with normal metaphonological development. Oller, D. K., Eilers, R. E., Bull, D. H., & Carney, A. E. March 1985, 47-63.
Relationships between the perception of nasalization and speech movements in speakers with cleft palate. Karnell, M. P., Folkins, J. W., & Morris, H. L. March 1985, 63-72.

Craniofacial and Other Anomalies

Correspondence between an accelerometric nasal/voice amplitude ratio and listeners' direct magnitude estimations of hypernasality. Redenbaugh, M. A., & Reich, A. R. June 1985, 273-281.
Relationships between the perception of nasalization and speech movements in speakers with cleft palate. Karnell, M. P., Folkins, J. W., & Morris, H. L. March 1985, 63-72.

Physiologically Based Speech Disorders

Correspondence between an accelerometric nasal/voice amplitude ratio and listeners' direct magnitude estimations of hypernasality. Redenbaugh, M. A., & Reich, A. R. June 1985, 273-281.

Relationships between the perception of nasalization and speech movements in speakers with cleft palate. Karnell, M. P., Folkins, J. W., & Morris, H. L. March 1985, 63-72.

Stuttering and Other Fluency Disturbances

Auditory stimulation, rhythm, and stuttering. Martin, R. R., Johnson, L. J., Siegel, G. M., & Haroldson, S. K. December 1985, 487-495.

The Bannock-Shoshoni still have terms for it: Whither Stewart [Letter]. Zimmermann, G. N. June 1985, 315-316.

Increasing the frequency of stuttering. Young, M. A. June 1985, 282-293.

Interruptions as a variable in stuttering and disfluency. Meyers, S. C., & Freeman, F. J. September 1985, 428-435.

Laryngeal behavior during stuttering: A further study. Conture, E. G., Schwartz, H. D., & Brewer, D. W. June 1985, 233-240.

Modification of listener-judged naturalness in the speech of stutterers. Ingham, R. J., Martin, R. R., Haroldson, S. K., Onslow, M., & Leney, M. December 1985, 495-504.

Mother and child speech rates as a variable in stuttering and disfluency. Meyers, S. C., & Freeman, F. J. September 1985, 436-444.

Onset of voicing in stuttered and fluent utterances. Borden, G. J., Baer, T., & Kenney, M. K. September 1985, 363-372.

Stuttering Indians: A reply to Zimmermann et al. [Letter]. Stewart, J. L. June 1985, 313-315.

Voice and Other Laryngeal Disorders

Effects of aerosol corticosteroids on the voice: Triamcinolone acetonide and beclomethasone dipropionate. Watkin, K. L., & Ewanowski, S. J. June 1985, 301-304.

Electrolaryngeal speech produced by laryngectomized subjects: Perceptual characteristics. Weiss, M. S., & Basili, A. G. June 1985, 294-300.

Generation and dissipation of heat in vocal fold tissue. Cooper, D. S., & Titze, I. R. June 1985, 207-215.

Quantitative spectral evaluation of shimmer and jitter. Klingholz, F., & Martin, F. June 1985, 169-174.

ASSESSMENT AND INTERVENTION

Assessment

Evaluation of speech production of the hearing impaired: Some benefits of forced-choice testing. Boothroyd, A. June 1985, 185-196.

Modification of listener-judged naturalness in the speech of stutterers. Ingham, R. J., Martin, R. R., Haroldson, S. K., Onslow, M., & Leney, M. December 1985, 495-504.

Relationships between the perception of nasalization and speech movements in speakers with cleft palate. Karnell, M. P., Folkins, J. W., & Morris, H. L. March 1985, 63-72.

Acoustic Measures of Speech and Voice

Acoustic dimensions of hearing-impaired speakers' intelligibility. Metz, D. E., Samar, V. J., Schiavetti, N., Sitler, R. W., & Whitehead, R. L. September 1985, 345-355.

Dissociations between vowel durations and formant frequency characteristics. Bernstein-Ratner, N. June 1985, 255-264.

Onset of voicing in stuttered and fluent utterances. Borden, G. J., Baer, T., & Kenney, M. K. September 1985, 363-372.

Phonetic speech perception deficits in dyslexia. Lieberman, P., Meskill, R. H., Chatillon, M., & Schupack, H. December 1985, 480-486.

Prespeech vocalizations of a deaf infant: A comparison with normal metaphonological development. Oller, D. K., Eilers, R. E., Bull, D. H., & Carney, A. E. March 1985, 47-63.

Quantitative spectral evaluation of shimmer and jitter. Klingholz, F., & Martin, F. June 1985, 169-174.

Intervention

Modification of listener-judged naturalness in the speech of stutterers. Ingham, R. J., Martin, R. R., Haroldson, S. K., Onslow, M., & Leney, M. December 1985, 495-504.

Instrumentation for Diagnosis, Treatment, and Research

Respiratory kinematics in classical (opera) singers. Watson, P. J., & Hixon, T. J. March 1985, 104-122.

DEAF INFANT VOCALIZATIONS

Prespeech vocalizations of a deaf infant: A comparison with normal metaphonological development. Oller, D. K., Eilers, R. E., Bull, D. H., & Carney, A. E. March 1985, 47-63.

SINGING PHYSIOLOGY

Respiratory kinematics in classical (opera) singers. Watson, P. J., & Hixon, T. J. March 1985, 104-122.

NEURAL CONTROL OF LARYNGEAL

The midbrain periaqueductal gray: A brainstem structure involved in vocalization. Larson, C. R. June 1985, 241-249.

PROFESSIONAL AND GENERAL SCIENTIFIC ISSUES

PROFESSIONAL AFFAIRS

Research Issues and Methodology

Relationships between the perception of nasalization and speech movements in speakers with cleft palate. Karnell, M. P., Folkins, J. W., & Morris, H. L. March 1985, 63-72.

Threshold and suprathreshold correlations for the oral tactile sensory mechanism. Fucci, D., Harris, D., & Petrosino, L. September 1985, 331-335.

Visual matching test-taking strategies used by deaf readers. LaSasso, C. March 1985, 2-7.

Interdisciplinary Concerns

Relationships between the perception of nasalization and speech movements in speakers with cleft palate. Karnell, M. P., Folkins, J. W., & Morris, H. L. March 1985, 63-72.

PROFESSIONAL TRAINING

Education and Continuing Education

Visual matching test-taking strategies used by deaf readers. LaSasso, C. March 1985, 2-7.

HISTORICAL PERSPECTIVES

Stuttering Indians: A reply to Zimmermann et al. [Letter]. Stewart, J. L. June 1985, 313-315.

TITLE INDEX

Acoustic dimensions of hearing-impaired speakers' intelligibility. Metz, D. E., Samar, V. J., Schiavetti, N., Sitler, R. W., & Whitehead, R. L. September 1985, 345-355.

Auditory implants and tactile aids for the profoundly deaf. Pickett, J. M., & McFarland, W. March 1985, 134-150.

Auditory stimulation, rhythm, and stuttering. Martin, R. R., Johnson, L. J., Siegel, G. M., & Haroldson, S. K. December 1985, 487-495.

The Bannock-Shoshoni still have terms for it: Whither Stewart [Letter]. Zimmermann, G. N. June 1985, 315-316.

Categorical perception of speech sounds via the tactile mode. Collins, M. J., & Hurtig, R. R. December 1985, 594-598.

Child meets word: 'Fast mapping' in preschool children. Dollaghan, C. September 1985, 449-454.

Cohesion in the narratives of normal and language-disordered children. Liles, B. Z. March 1985, 123-133.

Comparative evaluation of the auditory responsiveness of normal infants and profoundly multihandicapped children. Flexer, C., & Gans, D. P. June 1985, 163-168.

Comprehension of indirect requests in adults with autistic disorders and mental retardation. Paul, R., & Cohen, D. J. December 1985, 475-479.

Constructive comprehension abilities exhibited by language-disordered children. Ellis Weismer, S. June 1985, 175-184.

Conversational structure and topic performance in mother-child interaction. Wanska, S. K., & Bedrosian, J. L. December 1985, 579-584.

Correspondence between an accelerometric nasal/voice amplitude ratio and listeners' direct magnitude estimations of hypernasality. Redenbaugh, M. A., & Reich, A. R. June 1985, 273-281.

Creative language abilities of deaf children. Marschark, M., & West, S. A. March 1985, 73-78.

Development of print awareness in language-disordered preschoolers. Gillam, R. B., & Johnston, J. R. December 1985, 521-526.

Developmental trends in vocal fundamental frequency of young children. Robb, M. P., & Saxman, J. H. September 1985, 421-427.

Diotic loudness summation in normal and impaired hearing. Hall, J. W., & Harvey, A. D. G. September 1985, 445-448.

Dissociations between vowel durations and formant frequency characteristics. Bernstein-Ratner, N. June 1985, 255-264.

Do infants perceive similarity within feature classes? A critique of Hillenbrand [Letter]. Moroff, D. A. June 1985, 316-317.

Earphone-coupling technique for measuring the temporal characteristics of aural acoustic-immittance devices. Shanks, J., Wilson, R., & Jones, H. June 1985, 305-308.

Effects of aerosol corticosteroids on the voice: Triamcinolone acetonide and beclomethasone dipropionate. Watkin, K. L., & Ewanowski, S. J. June 1985, 301-304.

Effects of feedback filtering on nasalization and self-perception of nasality. Burzynski, C. M., & Starr, C. D. December 1985, 585-588.

Effects of linguistic and extralinguistic context on semantic and syntactic processing in aphasia. Pierce, R. S., & Beekman, L. A. June 1985, 250-254.

Effects of monitoring vocal intensity on oral air flow in children and adults. Stathopoulos, E. T. December 1985, 589-593.

Effects of presentation rate and divided attention on auditory comprehension in children

with an acquired language disorder. Campbell, T. F., & McNeil, M. R. December 1985, 513-520.

Effects of stimulus material on the dichotic listening performance of patients with sensorineural hearing loss. Speaks, C., Niccum, N., & Van Tasell, D. March 1985, 16-25.

Electrolaryngeal speech produced by laryngectomized subjects: Perceptual characteristics. Weiss, M. S., & Basili, A. G. June 1985, 294-300.

Empty speech in Alzheimer's disease and fluent aphasia. Nicholas, M., Obler, L. K., Albert, M. L., & Helm-Estabrooks, N. September 1985, 405-410.

Evaluation of speech production of the hearing impaired: Some benefits of forced-choice testing. Boothroyd, A. June 1985, 185-196.

Frequency selectivity and consonant intelligibility in sensorineural hearing loss. Preminger, J., & Wiley, T. L. June 1985, 197-206.

Generation and dissipation of heat in vocal fold tissue. Cooper, D. S., & Titze, I. R. June 1985, 207-215.

Homonymy and the voiced-voiceless distinction in the speech of children with specific language impairment. Leonard, L. B., Camarata, S., Schwartz, R. G., Chapman, K., & Messick, C. June 1985, 215-224.

Increasing the frequency of stuttering. Young, M. A. June 1985, 282-293.

Influence of the first formant on the recognition of voiced stop consonants by hearing-impaired listeners. Dorman, M. F., Lindholm, J. M., & Hannley, M. T. September 1985, 377-380.

Interruptions as a variable in stuttering and disfluency. Meyers, S. C., & Freeman, F. J. September 1985, 428-435.

Laryngeal behavior during stuttering: A further study. Conture, E. G., Schwartz, H. D., & Brewer, D. W. June 1985, 233-240.

Linguistic environment of the deaf child: A focus on teachers' use of nonliteral language. Newton, L. September 1985, 336-344.

Magnitude estimation of loudness III: Performance of selected hearing aid users. Margolis, R. H. September 1985, 411-420.

Maximum voluntary closing forces in the upper and lower lips of humans. Barlow, S. M., & Rath, E. M. September 1985, 373-376.

The midbrain periaqueductal gray: A brainstem structure involved in vocalization. Larson, C. R. June 1985, 241-249.

Modification of listener-judged naturalness in the speech of stutterers. Ingham, R. J., Martin, R. R., Haroldson, S. K., Onslow, M., & Leney, M. December 1985, 495-504.

Mother and child speech rates as a variable in stuttering and disfluency. Meyers, S. C., & Freeman, F. J. September 1985, 436-444.

Older listeners' ability to comprehend speaker-generated rate alteration of passages. Schmitt, J. F., & Carroll, M. R. June 1985, 309-312.

Onset of voicing in stuttered and fluent utterances. Borden, G. J., Baer, T., & Kenney, M. K. September 1985, 363-372.

Perceived contrastive stress production in hearing-impaired and normal-hearing children. Weiss, A. L., Carney, A. E., & Leonard, L. B. March 1985, 26-35.

Perception of emotional intonation by brain-damaged adults: The influence of task processing levels. Tompkins, C. A., & Flowers, C. R. December 1985, 527-538.

Perception of feature similarities by infants [Letter]. Hillenbrand, J. June 1985, 317-318.

Phoneme feature perception in noise by normal-hearing and hearing-impaired subjects. Gordon-Salant, S. March 1985, 87-95.

Phonetic inventories, 15–24 months: A longitudinal study. Stoel-Gammon, C. December 1985, 505-512.

Phonetic speech perception deficits in dyslexia. Lieberman, P., Meskill, R. H., Chatillon, M., & Schupack, H. December 1985, 480-486.

Prephonatory laryngeal and chest wall dynamics. Cavallo, S. A., & Baken, R. J. March 1985, 79-87.

Prespeech vocalizations of a deaf infant: A comparison with normal metaphonological development. Oller, D. K., Eilers, R. E., Bull, D. H., & Carney, A. E. March 1985, 47-63.

Primary modality for speech perception in children with normal and impaired hearing. Seewald, R. C., Ross, M., Giolas, T. G., & Yonovitz, A. March 1985, 36-46.

Probe-determined hearing-aid gain compared to functional and coupler gains. Zemplenyi, J., Dirks, D., & Gilman, S. September 1985, 394-404.

Production of object words and action words: Evidence for a relationship between phonology and semantics. Camarata, S. M., & Schwartz, R. G. September 1985, 323-330.

Quantitative spectral evaluation of shimmer and jitter. Klingholz, F., & Martin, F. June 1985, 169-174.

A 'rationalized' arcsine transform. Studebaker, G. A. September 1985, 455-462.

Relationships between the perception of nasalization and speech movements in speakers with cleft palate. Karnell, M. P., Folkins, J. W., & Morris, H. L. March 1985, 63-72.

Respiratory kinematics in classical (opera) singers. Watson, P. J., & Hixon, T. J. March 1985, 104-122.

Response strength of young children in operant audiometry. Primus, M. A., & Thompson, G. December 1985, 539-547.

Role of inversion in children's question development. Klee, T. June 1985, 225-232.

Some phonological characteristics of the speech of normal-hearing children of deaf parents. Schiff-Myers, N. B., & Klein, H. B. December 1985, 466-474.

Speaking clearly for the hard of hearing I: Intelligibility differences between clear and conversational speech. Picheny, M. A., Durlach, N. I., & Braida, L. D. March 1985, 96-103.

Speech-tracking performance in single-channel cochlear implant subjects. McConkey Robbins, A. J., Osberger, M. J., Miyamoto, R. T., Kienle, M. L., & Myres, W. A. December 1985, 565-578.

Stuttering Indians: A reply to Zimmermann et al. [Letter]. Stewart, J. L. June 1985, 313-315.

Threshold and suprathreshold correlations for the oral tactile sensory mechanism. Fucci, D., Harris, D., & Petrosino, L. September 1985, 331-335.

Tympanometric and acoustic-reflex studies in neonates. Sprague, B. H., Wiley, T. L., & Goldstein, R. June 1985, 265-272.

Variability of lip and jaw movements in children and adults: Implications for the development of speech motor control. Sharkey, S. G., & Folkins, J. W. March 1985, 8-15.

Verbal rehearsal and memory in language-disordered children. Kirchner, D. M., & Klatzky, R. L. December 1985, 556-565.

Visemes observed by hearing-impaired and normal-hearing adult viewers. Owens, E., & Blazek, B. September 1985, 381-393.

Visual matching test-taking strategies used by deaf readers. LaSasso, C. March 1985, 2-7.

Vocal/verbal response times of normal-hearing and hearing-impaired children. Fletcher, S. G., & Smith, S. C. December 1985, 548-555.

Word recognition performance with modified CID W-22 word lists. Runge, C. A., & Hosford-Dunn, H. September 1985, 355-362.

Written narratives of deaf and hearing students: Story recall and inference. Sarachan-Deily, A. B. March 1985, 151-159.
